

NATIONAL SEMINAR
On
Development in Geotechnical
Methods in
Foundation Engineering

(DGMFE - 03)

Sunday, 2nd February, 2003

BARODA CHAPTER

: Organised By :

INDIAN GEOTECHNICAL SOCIETY,
Baroda, Ahmedabad & Surat Chapters

NATIONAL SEMINAR
ON
Developments in Geotechnical
Methods in Foundation Engineering
(DGMFE - 03)

I N D E X

Sr. No.	Title of Paper
1	Curtain Grouting And Treatment Of Unconformity Zone Through Drainage Gallery Of Almatti Dam On Krishna River.
2	(I) Forensic Geotechnical Engineering. (Iii) Recommended Practices For Design Professionals Engaged As Experts In Resolution Of Construction Industry Disputes.
3	(I) Developments In Use Of Geosynthetics In Civil Engineering. (II) New Technologies In Geosynthetics.
4	Practical Problems In Ground Improvement By Stone Columns.
5	Geotechnics In Artesian Flow A Case Study.
6	Evaluation And Remediation Of Various Slope Stability Failures.
7	Unconventional Solutions For Geotechnical Problems Of Gujarat
8	Analysis & Design of Underground Rock Tunnels by BEM for Delhi Metro Project.
