

INDIAN GEOTECHNICAL SOCIETY

BARODA CHAPTER

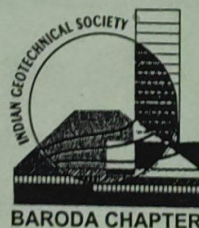

IN ASSOCIATION WITH
THE INSTITUTION OF ENGINEERS (I)
(VADODARA LOCAL CENTER)

Proceedings Volume
of
National Seminar
on
**DEVELOPMENTS IN GEOSYNTHETICS
AND
REINFORCED EARTH**
In Civil Engineering Practice

(DGRE '06)

21-22 April, 2006

Indian Geotechnical Society,
Baroda Chapter
Race Course Circle, GERI Campus,
VADODARA-390 007.

**NATIONAL SEMINAR ON
DEVELOPMENTS IN GEOSYNTHETICS & REINFORCED EARTH
(DGRE-06)**

:CONTENTS:

Geosynthetics in India- A Status Report
-G Venkattappa Rao

Foundation on Reinforced Soil Beds
-Swami Saran

Design and Construction of Reinforced Earth Structures
-V M Sharma

Geomembranes for Rehabilitation of Leaking Dams
-A K Dhavan

Geogrid Reinforced Soil Structures-Indian Experience in Black Cotton Soils
-G Venkattappa Rao, R Jaswant Kumar, R K Dutta

Issues Related to Design and Construction of Reinforced Earth Wall
-S Y Mahaiskar

Case Studies on Prefabricated Geodrains at Visakhapatnam
-V K Guru Vitthal

Hazardous Waste Land fills-Case Studies: Indian Experience
-M Venkat raman

Geo-Environmental Aspects of Stability of Waste Chalk Heaps At Fertilizer Complex
-A V Shroff, D L Shah

Prefabricated Band Drains Design And Case Study Of Panjar Pole Link Road
-Anand R Katti

Scenario of Geosynthetics Applications and Performance in Gujarat
-A V Shroff

Characterizations and Laboratory Testing Methods of Geosynthetics
-Lalit Thakur, Jagruti Sinroja, Nitin Joshi

Geomembrane in Municipal Solid Waste and Hazardous Waste Land Fill
-Manoj Datta
