

NATIONAL SEMINAR on PILES, DIAPHRAGMS & ANCHORAGES (PDA-07)

9th & 10th June, 2007

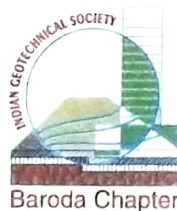

Construction Steps of Cast-in-Situ Diaphragm Wall

Driving Operation of Pile

PROCEEDING VOLUME

Baroda Chapter

: ORGANIZED BY :
Indian Geotechnical Society, Baroda Chapter

: ASSOCIATES :
**The Institution of Engineers, Local Center
App. Mech. Dept., M.S. University, Baroda.**

CONTENTS

Preface

#	Anchored RCC diaphragm wall coffer dam for Bilaspur dam - (a case study) Er. M Bidasaria	1 - 8
#	Guide lines for safe and economical pile foundation Dr. N. V. Nayak	9 - 28
#	Observed & theoretical behavior of instrumented retaining element Er. Gaurav S. Parab & Er. V. T. Ganpule	29 - 39
#	Rock socketed piles - experiences in flyovers Dr. S. Y. Maiskar	40 - 50
#	Pile dynamics test Er. S. M. Gupte	51 - 57
#	Structural & soil design of piles Dr. H. J. Shah	58 - 75
#	Jet grouted diaphragm walls - case studies Dr. A. V. Shroff	76 - 91
#	Pile Foundations - for high rise buildings Dr. G. B. Chaudhary	92 - 99
#	Ground Anchores Dr. D. L. Shah	100 - 107
#	Practical aspects of design of diaphragm walls Er. D. G. Bhagat	108 - 117
#	Piles subjected to Lateral / uplifts loads Dr. N. H. Joshi	118 - 123
#	Applications of stress wave theory to pile foundation Er. Ravikaran Vaidya	124 - 135
