**THE MAHARAJA SAYAJIRAO UNIVERSITY OF BARODA  
Vadodara**

# CONTENTS

	<i>Preface</i>	I
	<i>Organizing committee</i>	II
<b>1</b>	<b>Shallow and Deep Foundations</b>	
1	<b>A study on group behaviour in laterally loaded pile groups using 3D FEM</b> <i>Ramon Varghese, Shruti J Shukla, H. S. Patil</i>	3
2	<b>Comparative study of available static methods for pile capacity with recommended methods of Indian standard code</b> <i>Bhargav Tewar, Geet George</i>	5
3	<b>Model study on vertical and batter pile groups subjected to lateral load in sandy soil</b> <i>Bajaj Pankaj, Bansal R. K.</i>	7
4	<b>Carrying capacity of model piles under eccentric loading</b> <i>Modi Niket N., Joshi N. H.</i>	9
5	<b>An Experimental Study on Behaviour of Piled Raft Foundation</b> <i>Jaymin D Patil, Sandeep A Vasanwala, Chandresh H Solanki</i>	11
6	<b>An Experimental Study of Vertically Loaded Pile Groups</b> <i>Rajesh Prasad Shukla, Nihar Ranjan Patra</i>	13
7	<b>Design of Pile Cap subjected to different loading conditions</b> <i>Shanti S. Dessai, Sunny S. Desai, Haresh S. Parab, Siddhesh M. Mhalsker, Vaman G. Talaulikar, Shivraj N. Arolkar, Nisha P. Naik</i>	15
8	<b>Emerging Issues in High Rise Buildings : Geo Technical Aspects</b> <i>Yagyesh Narayan Shrivastava</i>	17
9	<b>Combined Pile-Raft Foundation (CPRF) : Cost Optimized Solution for High Rise Buildings</b> <i>Ashutosh Kumar, Deepankar Choudhury</i>	19
10	<b>A Proposed Methodology for Capacity of Larger Pile from tests on smaller piles</b> <i>Manisha Bhoje, V. B. Deshmukh, Shubhada S. Jagtap</i>	21
11	<b>A critical review on bearing capacity of a footing on sloping ground</b> <i>Rajesh Prasad Shukla, Ravi Sankar Jakka</i>	23
12	<b>Bearing Capacity of strip footings with construction sequence : Plaxis Fe Modelling and failure characteristics</b> <i>N. Rastogi, A. Dey</i>	25
13	<b>Stabilization of pile borehole using support fluids</b> <i>Sreedev M.S. , Benny Mathews Abraham, Babu T. Jose, Anil Joseph</i>	27
14	<b>Application of deep foundation to mitigate risk of liquefaction of soil : A case study</b> <i>Vijish Prabu, Alok Bhargava</i>	29
15	<b>A study of behaviour of Piled raft foundation for tall building with variable sub soil by time history : FEM Model</b> <i>Shukla S.J., Desai A.K., Solanki C.H.</i>	31
16	<b>Failure of a surface strip footing above an unlined long tunnel for cohesive-frictional soils</b> <i>Sounik K. Banerjee, Debarghya Chakraborty</i>	33

17	<b>Pull out capacity of piles in sandy deposit</b> <i>Ashika Shah, Nidhi Mehta, A.K. Verma</i>	35
<b>2</b>	<b>Rock Mechanics and Rock Engineering</b>	
18	<b>Engineering behaviour of oil shales at elevated temperature and confining pressure</b> <i>Ankesh Kumar, K. S. Rao</i>	39
19	<b>Normal Stress Dependent Deformability of Rock Mass</b> <i>Shashank Pathak, R.P. Yadav, G.V. Ramana, Hari Dev</i>	41
20	<b>Effect of cyclic loading on Himalayan Rocks</b> <i>S.Rukhaiyar, N.K. Samadhiya</i>	43
21	<b>Reliability analysis of Rock Slopes and comparison of strain for critical cohesions</b> <i>Mudliar Richa, Singh Mahendra</i>	45
22	<b>Correlating P-wave and Engineering Parameters of Sandstone</b> <i>Sachin Gupta, Hasan Abdullah, P.S. Krishna Murthy</i>	47
23	<b>Comparison of Porphyritic and non-porphyritic basalts</b> <i>P.S.K. Murthy, Hasan Abdullah, Sachin Gupta</i>	49
<b>3</b>	<b>Ground Improvement Techniques</b>	
24	<b>Design of sodium silicate based grout with polymeric activators</b> <i>Hiral S. Modha, L. S. Thakur, D.L. Shah, A.R. Umatt</i>	53
25	<b>Experimental Study on compaction characteristics of black cotton soil using Lime and Jute</b> <i>S.S. Athani, A. Ghorpade, C.H. Solanki</i>	55
26	<b>Progressive shear strength development of soft sub-soils with PVDs for Reinforced Soil Walls-Case Study</b> <i>A.S. Mane, M.Satav, S.P. Bagli</i>	57
27	<b>Stabilization of expansive subgrade soil with flyash</b> <i>L.M. Reddy, S.Patel</i>	59
28	<b>Microfine slag cement grout</b> <i>Patel Ketaki B., Joshi Nitin H.</i>	61
29	<b>Full Scale load tests on geosynthetic reinforced stone column</b> <i>Yogendra Tandel, Chandresh Solanki, Atul Desai</i>	63
30	<b>A review of bulging failure of stone column in soft soil</b> <i>Himmat K. Sarvaiya, C.H. Solanki</i>	65
31	<b>Effect of compaction state on strength characteristics of fibre reinforced soil</b> <i>Sanandam Bordoloi, Sudheerkumar. Y., Sreedeeep S., Sasanka Borah</i>	67
32	<b>Improvement in strength characteristics of Fiber Reinforced sandy soil</b> <i>Suchit Kumar Patel, Baleshwar Singh</i>	69
33	<b>A study of soil nailing in sand</b> <i>Disha D. Patel, Vaibhav H. Joshi, A.K. Verma, Vaibhav M. Javia</i>	71
<b>4</b>	<b>Geosynthetics and Natural Fibers</b>	
34	<b>CBR characteristics of clayey subgrade using layered geosynthetics with soil-geosynthetic interaction</b> <i>M.V. Shah, A.J. Shah, Purvik Gohel</i>	75
35	<b>Behaviour of Expansive Soil Subgrade with geotextiles and cushion materials</b> <i>V. S. Gor, L.S. Thakur, K.R. Biyani</i>	77
36	<b>Geotextile reinforced embankment as a cost effective alternative to reinforced earth wall on difficult subsoil condition</b> <i>Vashi Jigisha, Tailor Ravin, Sundararaman Babu</i>	79
37	<b>Interface friction between soil and geosynthetics</b> <i>Shah Khushbu J., Shah D. L.</i>	81

38	<b>Design of Flexible Airfield Pavement using geotextiles</b>	83
	<i>Sushovan Dutta, Maheboosab B. Nadaf, J.N. Mandal</i>	
39	<b>Engineered anti erosion works along the banks of river Brahmaputra</b>	85
	<i>Suresh Maurya, Manish Gupta, R. Chitra, Nripendra Kumar</i>	
40	<b>Soil-Geosynthetic interaction using pullout test: Effect of normal stress and displacement rate</b>	87
	<i>V.V. Mahajan, Y. Sudheer Kumar, Arindam Dey</i>	
41	<b>Cyclic behaviour of geocell reinforced soft clay beds</b>	89
	<i>A.M. Hedge, T.G. Sitharam</i>	
42	<b>Reduction in surcharge induced earth pressure using EPS geofom</b>	91
	<i>T.N. Dave, S.M. Dasaka</i>	
<b>5</b>	<b>Environmental Geotechnology</b>	
43	<b>Effect of contamination on soil properties &amp; it's remediation</b>	95
	<i>Nirali B. Hasilkar, L. S. Thakur, K. R. Biyani</i>	
44	<b>Enzyme Stablization of Organic Clay</b>	97
	<i>Greeshma Nizy Eujine, Lamanto T Somervell, S. Chandrakaran, N. Sankar</i>	
45	<b>Optimization for water colloidal silica ratio study with different reactants</b>	99
	<i>Komal K. Dave, L. S. Thakur</i>	
46	<b>Black Cotton Soil Stabilization using egg shells for use in sub-grade</b>	101
	<i>Bhargav Tewar, Chitra Pandya</i>	
47	<b>Influence of periodic chromium contamination on compressibility characteristics of kaolinitic clays</b>	103
	<i>R. S. Chahar, A. J. Shah, M.V. Shah</i>	
48	<b>Alkali activated fly ash : A new generation geo-material</b>	105
	<i>S. Chowdhury, A.Tiwari, S.P. Singh, A. Pani</i>	
49	<b>Comparative study of different waste product in stabilization of surat region expansive soil</b>	107
	<i>Berawala K. S.</i>	
50	<b>Behaviour of Compacted Soil Barriers under Advective gas flow condition</b>	109
	<i>A. A. Naik, S. Rajesh</i>	
51	<b>Evaluation of SWCC of a typical soil under various test methods and fitting algorithms</b>	111
	<i>R. Mahendra, S. Roy, S. Rajesh</i>	
52	<b>GIS based site selection for regional/divisional landfill- A case study of Allahabad division (Uttar Pradesh, India)</b>	113
	<i>Mohit Somani, Anurudh K Gautam, R. K. Srivastava</i>	
53	<b>Application of Industrial Wastes for Geotechnical purposes: A review</b>	115
	<i>Manish Yadav, Arvind Kumar Agnihotri, Akash Priyadarshree, Karma Hissey Lepcha</i>	
54	<b>Effect of fly ash on the engineering properties of black cotton soil- A review</b>	117
	<i>Gourav Dhane, A. K. Agnihotri, Akash Priyadarshree, Manish Yadav</i>	
55	<b>Land Contamination due to industrial effluents in major cities of Uttar Pradesh: A review</b>	119
	<i>Sandeep Kumar, Mohit Somani, R. K. Srivastava, Kumar Venkatesh</i>	
56	<b>Challenges in selection of technology for treatment of MSW</b>	121
	<i>Bhagawan S. Patil, Jeevan Joseph, Shashank B. S., Agnes Anto C., D.N. Singh</i>	
57	<b>Importance of suction in contemporary geotechnical engineering</b>	123
	<i>Kannan K. R. Iyer, Jeevan Joseph, Rakshith Shetty, D. N. Singh</i>	
58	<b>Poly O-Toluidine/Nylon 6 Nanocomposites: A novel approach to eKG Dewatering</b>	125
	<i>Sandeep Pandya, A. R. Umatt, L. S. Thakur</i>	
59	<b>Influence of Leachate Migration on Ground Water quality</b>	127
	<i>Naveen. B.P., Sivapullaiah. P. V., Sitharam T. G.</i>	
60	<b>Thermal Conductivity of various types of soils</b>	129

<b>6</b>	<b>Slope Stability and Land Slides</b>	
61	<b>One Dimensional Seismic stability analysis of embankments in goa</b>	133
	<i>Vidhya V Kudalkar, Purnamand P Savoikar, H. S. Prasannakumar</i>	
62	<b>Static stability and seepage analysis Borinquen dams at Panama canal</b>	135
	<i>Sujan Kulkarni, Ramon Martinez</i>	
63	<b>Optimum Design of V-shaped Geosynthetic Anchor Trenches for MSW landfill slopes: A reliability based approach</b>	137
	<i>KVNS Raviteja, B Munwar Basha</i>	
<b>7</b>	<b>Soil Dynamics and Earthquake Engineering</b>	
64	<b>A review on study of effect of fines content on liquefaction properties of sands</b>	141
	<i>S. Eswara Rao, Sri Satyajit Patel, B. Chandra</i>	
65	<b>Dyanamic analysis of pile group in liquefiable soil using FLAC3D</b>	143
	<i>Kaustav Chatterjee, Deepankar Choudhary</i>	
66	<b>Soil- Structure Interaction of buildings on sloping ground subjected to seismic excitation</b>	145
	<i>S. S. Athani, C. H. Solanki, G. R. Dodagoudar</i>	
67	<b>A critical review of Seismic analyses and design of waterfront retaining walls</b>	147
	<i>Giridhar Rajesh B., Choudhury D.</i>	
68	<b>Region specific maximum magnitude estimation considering the new correlation between rupture length and moment magnitude</b>	149
	<i>Ketan Bajaj, P. Anbazhagan</i>	
69	<b>Response of two- storied machines: Effect of stiffness ratio</b>	151
	<i>C. M. Jibeesh, B. Giridhar Rajesh, Y. Sudheer Kumar, Arindam Dey</i>	
70	<b>Seismic ground response analysis of cement treated ground</b>	153
	<i>Subramaniam P., Subhadeep Banarjee</i>	
71	<b>Assesment of Local site effects using microtremor measurement</b>	155
	<i>T.P. Thaker, K. S. Rao</i>	
72	<b>Seismic response of cable-stayed bridge with intermediate side span support including soil-structure interaction,</b>	157
	<i>Siddharth G. Shah, C. H. Solanki</i>	
<b>8</b>	<b>Geotechnical Investigation and Testing</b>	
73	<b>Correlation between California bearing ratio and Index properties of silt and clay of low compressibility</b>	161
	<i>Nitish Puri, Ashwani Jain</i>	
74	<b>Permeability characteristics of Clayey Soils, as affected by the soil micro-structure and applicability of theoretical permeability equations</b>	163
	<i>Swapna Varma. S., R. Chitra</i>	
75	<b>Effect of fine fraction on engineering behaviour of tropical residual soil</b>	165
	<i>Chandra. B., Solanki C. H., Eswara Rao S., Harshavardhan Reddy. M</i>	
76	<b>A critical review on alternate methods for determination of the Atterburg Limits</b>	167
	<i>Vinay Kumar Gadi, Partha Narayan Mishra</i>	
77	<b>Effect of Lime-mud on undrained shear strength of soil</b>	169
	<i>B. Baruah, S. Borah</i>	
78	<b>Prediction of CBR-based on plasticity index for Anand region</b>	171
	<i>Nazneen I. Pathan, A. K. Verma</i>	
79	<b>Advances in instrumentation for soil-moisture measurement: A retrospective</b>	

	<b>overview</b>	173
	<i>Partha Narayan Mishra, Vinay Kumar Gadi</i>	
80	<b>Dynamic response of river bed sands using cyclic triaxial tests</b>	175
	<i>S.S. Kumar, A. Dey, A. Murali Krishna</i>	
81	<b>Theory, analysis and interpretation of active MASW data (using different softwares)</b>	177
	<i>S. Sathwik Kashyap, A. Murali Krishna</i>	
82	<b>Unconfined Compressive strength of sheet reinforced soil</b>	179
	<i>Niraj Singh, Rajesh Prasad Shukla</i>	
83	<b>Estimating SBC of sandy soil using modified dynamic cone penetration equipment</b>	181
	<i>S. A. S. Kakodkar</i>	
84	<b>Dynamic response of machine on soil- foundation system by static cyclic plate load test</b>	183
	<i>Bhavini Prajapati, A. V. Shroff</i>	
85	<b>Statistical Analysis for size and electrical properties of soil</b>	185
	<i>Dhiren J. Panchal, L. S. Thakur, Pooja S. Rao</i>	
<b>9</b>	<b>Dam Engineering and Allied Areas</b>	
86	<b>A review : Factors affecting the safe performance of a dam</b>	189
	<i>S. S. Athani, A. Ghorpade, C. H. Solanki</i>	
87	<b>Study of static &amp; seismic response of tailing dams</b>	191
	<i>M. M. Wala, J.C. Shukla, D. L. Shah</i>	
88	<b>Numerical Analyses on effects of cutoff wall beneath dam using FEM</b>	193
	<i>S. S. Athani, S. Budde, Shivamant, B. Chandra, C.H. Solanki</i>	
89	<b>Total risk rating of existing earthen dams of Gujarat</b>	195
	<i>Krishna Shah, A. J. Shah</i>	
<b>10</b>	<b>Computational Geomechanics</b>	
90	<b>Prediction of compression index of clay using artificial intelligence</b>	199
	<i>Aditi Palsapure, Pijush Samui</i>	
91	<b>Prediction of coefficient of lateral earth pressure using functional network and multivariate adaptive regression spline</b>	201
	<i>Sumana Bhattacharya, Sarat Kumar Das</i>	
92	<b>Non-linear analysis of rectangular surface loading over granular fill-soft soil system</b>	203
	<i>Sumana Bhattacharya, Kousik Deb</i>	
93	<b>Numerical Modelling of Railway Foundation System</b>	205
	<i>Raghvendra Pratap Singh, Deepankar Choudhary</i>	
94	<b>Assesment of Seismic Liquefaction by ANN &amp; MLR</b>	207
	<i>Vaishali Madhwani, Shashank K. Pradhan, L. S. Thakur, B. J. Mehta</i>	
<b>11</b>	<b>Deep Excavation and Underground Structures</b>	
95	<b>Physical and numerical study on behaviour of pile wall retention system for deep excavations</b>	211
	<i>Chavda Jitesh, Solanki C.H., Desai A. K.</i>	
96	<b>Case study- Design of a 15.5m anchored diaphragm wall</b>	213
	<i>Shubhada Jagtap, Satish Naik</i>	
97	<b>Uplift response of buried soil and gas submarine pipelines</b>	215
	<i>Shubhrajit Maitra, Santiram Chatterjee, Deepankar Choudhary</i>	
98	<b>3D stress analysis of powerhouse caverns</b>	217
	<i>Sharique Khan</i>	

<b>12</b>	<b>Research Papers on Other Themes</b>	
99	<b>Retrofit of existing compressor foundations using advanced carbon fiber composites</b> <i>Gadhiya Shadab. A</i>	221
100	<b>Internship for civil/geotechnical engineers- An enhanced outlook</b> <i>Shubhada Jagtap, Ravikiran Vaidya</i>	223
101	<b>Design and cost analysis of retaining wall for road embankment in Goa</b> <i>Amir D. Hede, Apurva R. Shetye, Shanti S. Dessai, Reshma M. Gangawati, Purnanand P Savoikar</i>	225
102	<b>Risk Factor approach to soil property variation peeping through case studies</b> <i>A GuhaRay, D.K.Baidya</i>	227
103	<b>Case study – Replacement of abutment foundation by diaphragm wall</b> <i>Vimal Sorathiya</i>	229
